

Initiative Mapping

All communities have multiple initiatives and projects overlapping in the supportive housing or pay-for-success space.

While not all initiatives are relevant, it can be helpful to list the ones you think might **directly impact** the Pay-for-Success work. This could include a city or county's new initiative to integrate data or an initiative to expand Medicaid reimbursements.

Please also highlight the relevant overlap with this work so that we are able to refer back to this sheet and keep track of it as we go.

Initiative

Name	
Owner/initiator	
Other involved parties	
Short description	
Potential impact on PFS work	
Existing forums for updates
