“Stories from the Shadows: Reflections of a Street Doctor”

In 1985, Dr. O’Connell began full time clinical work with homeless individuals as the founding physician of the Boston Health Care for the Homeless Program (BHCHP), which now serves over 13,000 homeless persons each year in two hospital-based clinics (Boston Medical Center and MGH), and in more than 60 shelters and outreach sites throughout Boston. With his colleagues, Dr. O’Connell established the nation’s first medical respite program for homeless persons in September, 1985, with 25 beds in the Lemuel Shattuck Shelter. This innovative program now provides acute and sub-acute, pre- and post-operative, and palliative and end-of-life care in the freestanding 104-bed Barbara McInnis House. **The mission and work of Dr. O’Connell and his amazing team were featured on CBS News on March 25, 2017.**
