Community Agreements

Community Agreements

- Let's focus today on improving housing outcomes for justice-involved Black, Brown, and Indigenous/Native households
- Let's strive to be innovative today by temporarily suspending the rules, barriers and boundaries that can limit creativity
 - Let's be open to all possibilities while brainstorming
- Step-up & Step Back: Let's make room for all voices to be heard
- Treat each other with kindness and respect – remember that words can be hurtful
- Instead of invalidating somebody else's story with your own spin on their experience, share from your own heart and experience
- Are there other Community Agreements that folx would like to add today?
