

**CES Prioritization Workgroup Meeting 07.07.2022 Transcript**

1

00:00:02.580 --> 00:00:04.319

Illinois Team: This meeting is being recorded.

2

00:00:06.330 --> 00:00:08.849

Colleen Mahoney: hey I think.

3

00:00:11.550 --> 00:00:12.059

I might.

4

00:00:14.009 --> 00:00:14.519

Illinois Team: share.

5

00:00:17.609 --> 00:00:19.140

Some recent one.

6

00:00:23.160 --> 00:00:24.420

Colleen Mahoney: Okay, can you tell.

7

00:00:25.200 --> 00:00:27.960

Illinois Team: me again the recap, so you always.

8

00:00:28.050 --> 00:00:30.900

Illinois Team: received the agenda part of the agenda with having CPA.

9

00:00:31.110 --> 00:00:31.350

Think.

10

00:00:32.370 --> 00:00:34.800

Illinois Team: Some present today about this.

11

00:00:35.280 --> 00:00:38.610

Illinois Team: Word city is in terms of lifting the high or.

12

00:00:39.780 --> 00:00:55.770

Illinois Team: What they define in the legislation, I mean in the motion that was created by the CDC is that we can't move out of the temporary high risk of colon 19 until sega pH has deemed us out of the crisis so that's what she's going to present on today.

13

00:00:58.770 --> 00:01:02.160

Colleen Mahoney: Okay, great yeah i'm happy to can you all see my screen.

14

00:01:03.660 --> 00:01:07.860

Colleen Mahoney: yeah okay um and i'm really hoping to you know.

15

00:01:09.120 --> 00:01:13.320

Colleen Mahoney: Let You all know what my understanding of our role is and kind of test that.

16

00:01:14.190 --> 00:01:28.800

Colleen Mahoney: With the group and get feedback on you know if something about my understanding, or this this process doesn't sound right to other people and so hi if I don't know your name is colleen mahoney i'm a senior policy analyst here at pH.

17

00:01:30.720 --> 00:01:36.300

Colleen Mahoney: And yeah that's, that is, who I am my pronouns are she for.

18

00:01:37.740 --> 00:01:41.130

Colleen Mahoney: And i'm glad to join you all today so.

19

00:01:42.330 --> 00:01:43.800

Colleen Mahoney: um let's see.

20

00:01:45.360 --> 00:01:45.960

Colleen Mahoney: The.

21

00:01:46.980 --> 00:01:49.320

Colleen Mahoney: As many people probably know.

22

00:01:50.430 --> 00:01:59.310

Colleen Mahoney: When that CFC board paths the temporary colored prioritization policy in mid April.

23

00:02:00.630 --> 00:02:07.650

Colleen Mahoney: There was some language and the policy that said this policy will be in effect during the COPA 19 health crisis.

24

00:02:08.370 --> 00:02:15.270

Colleen Mahoney: The Chicago department of public health will determine the end of the COPA 19 crisis for the purposes of this policy.

25

00:02:16.140 --> 00:02:23.940

Colleen Mahoney: So we've had a couple conversations you know as this work group has has gotten together and launched, you know what is, what does that mean.

26

00:02:24.570 --> 00:02:31.320

Colleen Mahoney: To the Community, what does that mean to see the pH and you know what will it look like to change the temporary prioritization.

27

00:02:32.280 --> 00:02:41.130

Colleen Mahoney: You know I think my CD pH is understanding here is really that key language in these two sentences is.

28

00:02:41.730 --> 00:02:55.230

Colleen Mahoney: For the purposes of this policy right so like this is not a designation, that is tied to kind of any external metric like whether the CDC says we're still in a pandemic, or you know anything like that.

29

00:02:56.370 --> 00:03:03.720

Colleen Mahoney: This is a determination you know when is it appropriate to lift the temporary prioritization It really should be looking at.

30

00:03:05.520 --> 00:03:13.560

Colleen Mahoney: Coco bed 19 in the context of the needs of the CRC and the needs of coordinated entry and the needs of Chicago and experiencing homelessness.

31

00:03:14.880 --> 00:03:25.770

Colleen Mahoney: And we understand that there's a lot of other you know, certainly cove it is still real and it's still affecting many people's health and, especially, you know people living in concrete settings.

32

00:03:27.300 --> 00:03:35.880

Colleen Mahoney: But at the same time folks are balancing you know numerous public health and and social needs, when making decisions about coordinated entry.

33

00:03:36.810 --> 00:03:47.190

Colleen Mahoney: So you know we certainly recognize that is well that that code is just one factor that we need to be weighing when we all talk about quitting gentry decisions together.

34

00:03:48.240 --> 00:03:48.630  
Colleen Mahoney: um.

35

00:03:49.920 --> 00:04:04.050  
Colleen Mahoney: So I want you know, want to put that out there, from the start, and I think you know, also important to say clearly April 2020 was a really different time.

36

00:04:05.100 --> 00:04:17.460  
Colleen Mahoney: In our understanding of the pandemic, you know things like access to vaccine ability of of direct Service staff to support people experiencing homelessness and you know implementing.

37

00:04:18.210 --> 00:04:27.000  
Colleen Mahoney: infection control measures, you know all that stuff we were in we were in a different place and so when we think about you know.

38

00:04:28.170 --> 00:04:32.190  
Colleen Mahoney: Is it the right time to lift the temporary prioritization certainly.

39

00:04:33.000 --> 00:04:42.630  
Colleen Mahoney: will think about considerations like access to vaccine as well is you know what we know about actual vaccination rates among people experiencing homelessness.

40

00:04:43.590 --> 00:04:51.630  
Colleen Mahoney: individuals and systems ability to implement public health measures Kobe case rates and shelters and in the community at large.

41

00:04:52.050 --> 00:04:59.910  
Colleen Mahoney: And hospitalization rates death rates as all of those things have kind of changed, you know in proportion to each other as the pandemic has.

42

00:05:00.810 --> 00:05:07.140  
Colleen Mahoney: or their you know their relationship to each other, between you know what we see in terms of case rates and what we see in terms of hospitalization has.

43

00:05:08.220 --> 00:05:10.620  
Colleen Mahoney: changed as the pandemic has gone on.

44

00:05:11.820 --> 00:05:23.820

Colleen Mahoney: And then thinking too about what how the severity of code looks now versus in the first wave of the pandemic So those are all things we will think about, but you know I think ultimately.

45

00:05:25.050 --> 00:05:31.290

Colleen Mahoney: CD pH will will be ready to recommend lifting the temporary prioritization when the Community is.

46

00:05:32.340 --> 00:05:35.040

Colleen Mahoney: You know ready for it to be to be lifted.

47

00:05:36.990 --> 00:05:48.960

Colleen Mahoney: Because we do recognize that you know I don't think many of us anticipated when this temporary prioritization was put in place that you know, two and a half years later, it would, it would still be in effect.

48

00:05:49.590 --> 00:06:02.400

Colleen Mahoney: And we certainly would like to be a part, you know have this ongoing conversation and be a thought partner, and you know what is the role of health and public health in things like coordinated entry prioritization but.

49

00:06:03.450 --> 00:06:08.640

Colleen Mahoney: Certainly, you know, none of, not even the health and public health picture is limited to.

50

00:06:10.050 --> 00:06:23.340

Colleen Mahoney: You know, to the lens of a cold, the risk right there's so many other considerations that we all that we all balance and so yeah when we think about process, I think, certainly CD pH.

51

00:06:24.630 --> 00:06:37.890

Colleen Mahoney: In our Commissioner can write a memo to the CD to see board kind of outlining you know, looking at different considerations talking about you know what has developed and Kobe risk and our understanding of co good.

52

00:06:39.720 --> 00:06:51.570

Colleen Mahoney: You know, over the last two it's almost two and a half years, and we, we want to work in coordination with with this group's timeline and my understanding and has been that.

53

00:06:52.170 --> 00:07:03.300

Colleen Mahoney: there's not necessarily an interest in you know just lifting the temporary privatization and kind of reverting back to what was in place before, but that we want to have this Community process to.

54

00:07:04.470 --> 00:07:07.950

Colleen Mahoney: You know agree on what will replace temporary prioritization so.

55

00:07:09.690 --> 00:07:23.280

Colleen Mahoney: I haven't understood that we're trying to lift temporary prioritization you know before kind of the work of this group make moves forward but that's kind of a question I wanted to bring to the group today is, you know, does that sound right.

56

00:07:24.570 --> 00:07:39.660

Colleen Mahoney: And my thought is that the memo CD pH right should be addressed to this to the CEO seaboard and that we could deliver that you know as part of the same packet with this group's recommendation for a new prioritization.

57

00:07:40.590 --> 00:08:00.930

Colleen Mahoney: But you know again like if that does not sound right then i'm happy to take that feedback, and so I mean I think that's the whole the whole presentation this this language was not um you know tied to any external metrics and you know just as kind of.

58

00:08:02.700 --> 00:08:12.750

Colleen Mahoney: What are appropriate public health measures you know in various settings like really depend on the needs of those settings and and what other.

59

00:08:13.860 --> 00:08:27.630

Colleen Mahoney: Considerations there they're weighing you know it's the same with coordinated entry, and so our goal is to be a partner in this process and not to be you know, a roadblock to making changes that will that will benefit the system.

60

00:08:28.980 --> 00:08:34.200

Colleen Mahoney: So I think that's what I what I have to say, do folks have any questions or feedback.

61

00:08:39.300 --> 00:08:47.910

Illinois Team: see some conversation in the chat so when the CFC when we were in you know the early stages of COPD with the CRC.

62

00:08:49.290 --> 00:08:50.610  
Illinois Team: made a.

63

00:08:51.810 --> 00:08:58.650  
Illinois Team: decision to prioritize sort of high risk around our  
continual not just coordinated entry.

64

00:08:59.280 --> 00:09:15.360  
Illinois Team: And so that was how it was sort of the overlay to our  
offerings under the cmc and you know if if we are looking for a different  
recommendation recommendation, then I think we have to go through our  
accorded industry leadership team first and then.

65

00:09:16.620 --> 00:09:19.290  
Illinois Team: get it approved there and then go to.

66

00:09:20.400 --> 00:09:30.300  
Illinois Team: But I think the letter going to the cmc as you stay to  
colleen i'm was sort of meet both goes from both ends, so to speak, so  
that makes sense, books.

67

00:09:36.000 --> 00:09:38.940  
Illinois Team: Any thoughts on the presentations.

68

00:09:38.940 --> 00:09:41.310  
Fred Friedman: question, I may have missed.

69

00:09:41.580 --> 00:09:44.550  
Fred Friedman: I missed the beginning of the presentation.

70

00:09:45.630 --> 00:09:55.770  
Fred Friedman: So i'm still not clear what the timeline is when when is  
the when is this memo going to be prepared and when is it going to be  
submitted to.

71

00:09:56.880 --> 00:09:57.480  
Fred Friedman: The word.

72

00:09:58.230 --> 00:09:58.560  
Colleen Mahoney: yeah.

73

00:09:58.620 --> 00:10:02.760

Fred Friedman: I mean he's proposal that's your proposal right that's that's what you're proposing.

74

00:10:03.900 --> 00:10:07.680

Fred Friedman: Up he write a memo submitted to the board.

75

00:10:09.150 --> 00:10:10.800

Fred Friedman: When when will this happen.

76

00:10:12.180 --> 00:10:19.470

Colleen Mahoney: Well, I mean I guess i'm i'm trying to get a better understanding of the timeline that this group is working on right because I don't want to.

77

00:10:20.760 --> 00:10:28.800

Colleen Mahoney: Unless we, we would like the the temporary prioritization to just be lifted and you know, like I said not sure.

78

00:10:30.090 --> 00:10:43.590

Colleen Mahoney: If that's what folks would want without having a new prioritization in place but yeah I mean if a better if a better process would be to to have a memo.

79

00:10:44.370 --> 00:10:54.720

Colleen Mahoney: You know, at the same time that this working group produces something for see leadership, you know which would ultimately go to the board like i'm happy to work sooner, but I mean.

80

00:10:57.240 --> 00:11:12.540

Colleen Mahoney: A lot of you know, I would like to have a memo with current covert information and if it's going to be something that we deliver in six months that I, you know I don't I don't want to put that together now it's it's not going to be relevant when we're ready for it.

81

00:11:15.480 --> 00:11:16.230

Illinois Team: I see.

82

00:11:20.040 --> 00:11:36.480

Beth Horwitz, she/her/hers: yeah I think I, I think that calling pure idea that it's it's helpful to know where CD CD page stands right now, I think you know to your comment that there were so many things we didn't know in April of 2020 and so wanting to be.

83

00:11:37.620 --> 00:11:46.380

Beth Horwitz, she/her/hers: cognizant of to make choices in a sort of new world with the expertise of the people who were best positioned to provide expertise about.

84

00:11:46.710 --> 00:12:04.050

Beth Horwitz, she/her/hers: When it was safe to stop planning around coven 19 I think is really as you were saying part of why that's what the languages in there and I think you know it is probably helpful to this group in discussion as we think about what a new prioritization is right there.

85

00:12:04.680 --> 00:12:11.730

Beth Horwitz, she/her/hers: Right now, with Kobe does everything and a future state could be covert is something it doesn't have to be that it is yes.

86

00:12:11.730 --> 00:12:15.810

Beth Horwitz, she/her/hers: covert or no covert it could be yes coven.

87

00:12:16.140 --> 00:12:21.360

Beth Horwitz, she/her/hers: As one criteria, and so I think that there is potentially valuable.

88

00:12:21.360 --> 00:12:24.090

Beth Horwitz, she/her/hers: Information that CD pH could be offering to.

89

00:12:25.020 --> 00:12:28.980

Beth Horwitz, she/her/hers: The this group that then empowered with the.

90

00:12:30.060 --> 00:12:37.860

Beth Horwitz, she/her/hers: planning process and building a recommendation to offer to the cf leadership team to give to the board and that.

91

00:12:38.370 --> 00:12:41.340

Beth Horwitz, she/her/hers: There is information in the same way that CD page could offer us.

92

00:12:41.340 --> 00:12:44.220

Beth Horwitz, she/her/hers: helpful insight into thinking about general public health.

93

00:12:44.640 --> 00:12:52.980

Beth Horwitz, she/her/hers: parameters that we should be thinking about from that vantage point in the same way that folks like near tournament emc brown have sort of this other perspective, I think.

94

00:12:53.700 --> 00:13:03.480

Beth Horwitz, she/her/hers: I think would be really helpful as this group figures out if not only coven, then what because they think they're sort of lots of opportunities here.

95

00:13:04.050 --> 00:13:12.660

Beth Horwitz, she/her/hers: For us to be thinking holistically about folks and that, given what we've seen as I feel like every time we take a step towards oh coven might be over than a new.

96

00:13:13.260 --> 00:13:19.890

Beth Horwitz, she/her/hers: variants arrived, so I think back to when we started these conversations thinking with time and then suddenly omnicom showed up right, and so the.

97

00:13:20.340 --> 00:13:32.430

Beth Horwitz, she/her/hers: Urgency around having a replacement I think has come and gone and, from what I read in the times, maybe coming back again so you know I think all, which is a long winded way of saying.

98

00:13:33.780 --> 00:13:52.410

Beth Horwitz, she/her/hers: I think it'd be great for CD pH to keep that in mind, perhaps through you as like informing how we all think together about what a new prioritization might be, and where and how coded does or doesn't fit into it and that we go through that process before we get weighed up coven completely.

99

00:13:54.960 --> 00:14:03.180

Colleen Mahoney: yeah I mean I think we're we're happy to be a partner in that way and i'm I mean, I do think that's a more.

100

00:14:04.290 --> 00:14:14.670

Colleen Mahoney: expansive role that you know, we would like to play then then kind of the relatively narrow one referenced in in the board, you know, in the policy that passed.

101

00:14:15.960 --> 00:14:25.980

Colleen Mahoney: For the temporary prioritization and you know and it as this working group is is moving forward, you know we're definitely happy to receive.

102

00:14:26.790 --> 00:14:40.320

Colleen Mahoney: An equal you know what are the highest risk settings within our system, for you know for accelerating you know health conditions or you know which of the high Kobe hybrid categories are widely applicable to other.

103

00:14:41.700 --> 00:14:58.710

Colleen Mahoney: You know other health needs that might make sense to prioritize folks for housing or you know, like we're happy to receive those questions um but yeah I mean I think it's a different role than the one that's given to us and mo credit, I see it is your hand still up.

104

00:15:02.160 --> 00:15:02.820

Illinois Team: you're on mute.

105

00:15:04.500 --> 00:15:10.410

Fred Friedman: As last time for now I apologize last time for not using prison so Kelly.

106

00:15:12.270 --> 00:15:15.690

Fred Friedman: This is most things do this really confuses.

107

00:15:16.830 --> 00:15:18.630

Fred Friedman: So all I know.

108

00:15:19.740 --> 00:15:21.660

Fred Friedman: Is that six months from now.

109

00:15:22.680 --> 00:15:27.120

Fred Friedman: will be a lot colder in Chicago in the gays will be a lot shorter.

110

00:15:28.350 --> 00:15:31.170

Fred Friedman: Almost everything else is.

111

00:15:32.640 --> 00:15:34.770

Fred Friedman: up for grabs I don't know how bad.

112

00:15:36.360 --> 00:15:46.470

Fred Friedman: A coven will be I don't know how expensive housing will be I don't know how I don't even know how much colder it will be um.

113

00:15:48.660 --> 00:16:04.710

Fred Friedman: I don't know how our Federal Government will will will will I don't know escape elections going on, and there will be decisions, so we have to make decisions based on really strong lack of knowledge.

114

00:16:06.030 --> 00:16:06.480

Fred Friedman: and

115

00:16:09.990 --> 00:16:13.890

Fred Friedman: I guess the difficulty is is that what we tend to do is we tend to make roles.

116

00:16:15.000 --> 00:16:17.010

Fred Friedman: Based on fighting the last war.

117

00:16:18.450 --> 00:16:21.390

Fred Friedman: When the rule when when the Lord win the battle is already.

118

00:16:23.370 --> 00:16:24.360

Fred Friedman: Thank you, I hope this was.

119

00:16:25.860 --> 00:16:26.610

Fred Friedman: Not harmful.

120

00:16:34.110 --> 00:16:37.680

Illinois Team: Any other questions for colleen.

121

00:16:41.760 --> 00:16:46.620

Illinois Team: um I see there was a message in the chat from Andrew.

122

00:16:49.170 --> 00:16:50.880

Illinois Team: Do you want to come off mute.

123

00:16:53.400 --> 00:17:04.020

Andrew Taylor: yeah Let me turn my camera down sorry my he wrote um yeah I think you know, based on what like Laura said at the beginning of the meeting and sort of the issue that colleen has raised around, but when.

124

00:17:04.440 --> 00:17:15.390

Andrew Taylor: To ship things it seems like lifting the temporary of prioritization to bring back, an old permanent prioritization and changing agencies that coming up with a new permanent prioritization like.

125

00:17:16.170 --> 00:17:23.790

Andrew Taylor: Is a lot of extra steps when it seems like holding a temporary prioritization until either we have something or after.

126

00:17:24.270 --> 00:17:34.320

Andrew Taylor: The agency change like might just be a more straightforward process well for the group, like in for the people who are having to determine new policy, about a prioritization anyway.

127

00:17:35.550 --> 00:17:42.120

Andrew Taylor: Like why jump back and forth when we can use the coming changes to like make the permanent predators engine a little more effective, maybe.

128

00:17:45.990 --> 00:17:49.740

Illinois Team: Thank you for there any other points.

129

00:17:52.350 --> 00:17:54.540

Laura Bass she/her: I would agree with what Andrew said, I think.

130

00:17:57.240 --> 00:18:12.390

Laura Bass she/her: I don't I I definitely am open to folks have a different opinion, but I, I have not necessarily felt like overwhelming support for Oh, we should just go back to how we were doing things prior to coven I don't necessarily feel like that felt like it was working.

131

00:18:14.130 --> 00:18:24.960

Laura Bass she/her: optimally for people experiencing homelessness or for housing providers, and so I think it makes sense to kind of work toward a new prioritization and.

132

00:18:26.070 --> 00:18:33.090

Laura Bass she/her: There might be some band AIDS, I will, I will say there are some band aids that are going to need to be applied to the current system.

133

00:18:34.260 --> 00:18:35.520

Laura Bass she/her: There are you know but.

134

00:18:36.540 --> 00:18:43.860

Laura Bass she/her: I think rolling out a new prioritization and kind of lifting the current the current participation at the same time makes more sense.

135

00:18:48.600 --> 00:18:49.530

Illinois Team: folks.

136

00:18:53.640 --> 00:19:01.110

Illinois Team: So I wanted to go back to answer Question on the question you had calling about a timeline um.

137

00:19:02.280 --> 00:19:11.850

Illinois Team: This group hat and decide, you know we knew that this work would be Labor intensive, it would be hard decision to make, and that it would take some time you know not.

138

00:19:12.600 --> 00:19:24.780

Illinois Team: With the goal of having this group, you know meet for three months and we're done just really being thorough in all of the sort of nuances that folks have talked about so we had created a like we're going to be done by this date.

139

00:19:25.680 --> 00:19:31.170

Illinois Team: which you know I understand from the perspective that Laura and dimension, you know kind of.

140

00:19:32.220 --> 00:19:37.710

Illinois Team: can change, whether or not our what our timeline can be in relation to a new lead entity.

141

00:19:39.780 --> 00:19:46.890

Illinois Team: And I thought it was important for the group to understand that, like where things are in relation to the department of public health, like.

142

00:19:48.360 --> 00:19:58.680

Illinois Team: understanding there, they are you last time I around a metrics or you know, like getting the sort of consensus from coordinated entry support things of that nature so.

143

00:19:59.220 --> 00:20:16.110

Illinois Team: i'm really happy that you were able to sort of give us that information, but I don't at this point, I feel like I can't say yes, this is when we need you know the answer from you or yes, is this is like the date work, especially now the date we're going to make the decision.

144

00:20:17.880 --> 00:20:37.950

Illinois Team: But also, knowing and informing our work Members today that, like this thing is in place, and until this is sort of presented to us as it's lifted by the Department of public health, that we can't necessarily change things, until that happens so it's kind of a chicken and egg relationship.

145

00:20:40.500 --> 00:20:43.410

Illinois Team: And yes, that's kind of the peace of mind.

146

00:20:45.870 --> 00:20:46.320

Colleen Mahoney: yeah.

147

00:20:46.380 --> 00:20:46.740

yeah.

148

00:20:47.790 --> 00:20:49.590

Illinois Team: Oh sorry, no, I think.

149

00:20:49.650 --> 00:20:52.290

Colleen Mahoney: The only thing I want to say is like.

150

00:20:53.430 --> 00:20:56.220

Colleen Mahoney: um you know I mean, I think that.

151

00:20:57.420 --> 00:21:05.370

Colleen Mahoney: We feel like this, this co she was really you know our our our partner and acting quickly and in responding to a little bit and.

152

00:21:07.110 --> 00:21:11.190

Colleen Mahoney: This you know, in the system and our goal.

153

00:21:12.570 --> 00:21:18.810

Colleen Mahoney: With deciding you know when it's the right time to lift it is is is to be you know good partners.

154

00:21:20.220 --> 00:21:27.450

Colleen Mahoney: And so it's not our goal to be a barrier, you know this process and I, you know, I think, as others have said, i'm.

155

00:21:28.500 --> 00:21:44.460

Colleen Mahoney: Colin will continue, you know to be with us for a long time, and so we do we do hope that we can think together about like what

is a good and and useful and helpful health lens you know, to retain and prioritization but.

156

00:21:45.690 --> 00:21:51.150

Colleen Mahoney: This system is balancing a lot of a lot of needs, and you know there's there's no reason.

157

00:21:52.260 --> 00:21:56.310

Colleen Mahoney: It should continue only looking at coders for for years and years.

158

00:22:00.600 --> 00:22:01.770

Illinois Team: Any other.

159

00:22:03.150 --> 00:22:09.390

Illinois Team: Questions thoughts for calling Thank you so much for attending, thank you for working through the.

160

00:22:10.440 --> 00:22:12.450

Illinois Team: Technological crisis of the day for me.

161

00:22:16.980 --> 00:22:18.870

And I want to see my.

162

00:22:20.910 --> 00:22:21.840

Illinois Team: screen share.

163

00:22:24.000 --> 00:22:26.250

Illinois Team: I can see my screen.

164

00:22:29.850 --> 00:22:30.720

Jajuana Walker YAB (she,her,hers): Share now.

165

00:22:31.110 --> 00:22:35.580

Illinois Team: it's the loading okay Thank you so much information.

166

00:22:37.290 --> 00:22:48.390

Illinois Team: So there are a couple other agenda items and then I want to kind of get to the open forum, which is, I think the conversation that lower presented um so the other agenda items.

167

00:22:50.610 --> 00:22:51.270

Gwen McElhattan: We can see it.

168

00:22:52.230 --> 00:22:52.860

Illinois Team: Okay, great.

169

00:22:56.190 --> 00:23:04.410

Illinois Team: So this is, you know, this is our value statement from the work group we one of the the other agenda item.

170

00:23:05.250 --> 00:23:17.580

Illinois Team: was to talk about inclusion of other stakeholders, I know, we had a lot of conversation we also sent out a survey our last meeting just to get the feedback, because I think we ran out of time about who.

171

00:23:18.150 --> 00:23:27.180

Illinois Team: This committee Member thought would be other good stakeholders to include, and so there were really three identified.

172

00:23:27.810 --> 00:23:38.430

Illinois Team: in various ways, and so i'm presenting the motion to adopt CD pH and our system navigators as voting members into the work group.

173

00:23:38.940 --> 00:23:47.430

Illinois Team: And then there was presentation about having representation from the children's health care provider system or sector and that.

174

00:23:47.820 --> 00:23:56.700

Illinois Team: That inclusion would be more to sort of gather the perspective of folks but we didn't necessarily need that group to be a voting Member so.

175

00:23:57.240 --> 00:24:12.570

Illinois Team: i'm sort of presenting the motion to include CD pH and our system navigators into this group, and then invite the children healthcare providers to to be a part of the group, but not a part of the voting, not as a voting Member I say.

176

00:24:14.430 --> 00:24:15.780

Illinois Team: Put that out there.

177

00:24:18.990 --> 00:24:20.310

Illinois Team: for discussion.

178

00:24:21.930 --> 00:24:25.140

Beth Horwitz, she/her/hers: He done a can we confirm who's voting in this group currently.

179

00:24:25.980 --> 00:24:27.630

Illinois Team: Yes, let me go back to.

180

00:24:28.350 --> 00:24:46.500

Beth Horwitz, she/her/hers: The folks because I like I know, for example, Jacob is not but he's here I mean like not to put it on the spot, just to say take a fireball Chicago we don't get to vote, but I think it might help to like reaffirm is everyone else voting I don't know.

181

00:24:49.860 --> 00:24:52.410

Illinois Team: So the voting members should be the list of.

182

00:24:54.420 --> 00:25:02.670

Illinois Team: stakeholders are members that are from these identified adapted groups, including those eight affinity groups.

183

00:25:05.640 --> 00:25:08.070

Beth Horwitz, she/her/hers: That we know who's from which.

184

00:25:10.320 --> 00:25:14.280

Beth Horwitz, she/her/hers: And whether they have extra people from them or not.

185

00:25:15.540 --> 00:25:18.420

Megan Wickman (she/they): Donna, is it the affinity groups.

186

00:25:21.540 --> 00:25:22.140

Illinois Team: Yes.

187

00:25:22.410 --> 00:25:24.180

Illinois Team: Okay, I feel, see, let me.

188

00:25:25.470 --> 00:25:40.050

Megan Wickman (she/they): I don't know if this is, I think this is where we got a little bit tripped up to with either flora, or I don't joining from the US action board is that I think they use Advisory Board and they use action board got clumps together and it's actually.

189

00:25:40.770 --> 00:25:41.850  
Illinois Team: If we want right.

190  
00:25:42.120 --> 00:25:49.290  
Megan Wickman (she/they): Two different representatives for one you wanna and then somebody from the US X or the.

191  
00:25:50.100 --> 00:25:55.350  
Megan Wickman (she/they): sneaker yeah but but we're going to add group on this list.

192  
00:25:55.410 --> 00:25:57.750  
Beth Horwitz, she/her/hers: You are really using.

193  
00:25:57.930 --> 00:25:59.190  
Beth Horwitz, she/her/hers: an affinity group on that list.

194  
00:25:59.580 --> 00:26:03.330  
Megan Wickman (she/they): No we're not and I don't think we're I don't think we're in affinity group hey.

195  
00:26:03.390 --> 00:26:06.600  
Jacob Storck (he/him): You are, it might be another name yeah.

196  
00:26:07.140 --> 00:26:11.190  
Megan Wickman (she/they): Okay we're not I got the list print out and we are oh homeless youth committee.

197  
00:26:12.480 --> 00:26:12.960  
We are.

198  
00:26:15.240 --> 00:26:32.130  
Illinois Team: So you know we can do a roll call and have a official roll call, but first why there hasn't been a second to the emotion so um that's that, but we can do an official roll call for each affinity group and out of the other represented stakeholder groups as well.

199  
00:26:33.270 --> 00:26:34.500  
Illinois Team: We can ask you know.

200  
00:26:35.520 --> 00:26:45.330

Illinois Team: I don't want to say i'm assuming but i'm, you know as folks know who they are, and what group they're representing that you know you know you're a voting Member um.

201

00:26:49.050 --> 00:26:53.250

Illinois Team: yeah I think they're the service providers, is it an affinity group.

202

00:26:55.080 --> 00:26:55.800

Megan Wickman (she/they): going to read them.

203

00:26:57.360 --> 00:27:02.280

Megan Wickman (she/they): HIV housing advisory task group service providers, Commission.

204

00:27:02.910 --> 00:27:18.510

Megan Wickman (she/they): women's affinity group, domestic violence, ending veteran homelessness initiative homeless youth Committee which I think you have on your Chicago coalition for the homeless and collaborative i'm child homelessness and charge health equity affinity group.

205

00:27:20.310 --> 00:27:24.990

Illinois Team: Are we have two hands up I see I think Fred and then Laura.

206

00:27:29.640 --> 00:27:34.650

Fred Friedman: Is in the chat these things really.

207

00:27:34.800 --> 00:27:35.820

confuses me.

208

00:27:37.050 --> 00:27:45.570

Fred Friedman: Are we following robert's rules of order are we following some other hormones consensus voting.

209

00:27:49.200 --> 00:27:50.250

Illinois Team: So I think.

210

00:27:50.250 --> 00:27:51.300

Illinois Team: My leadership.

211

00:27:51.360 --> 00:27:52.650

Fred Friedman: I yeah.

212

00:27:54.180 --> 00:27:54.990

Fred Friedman: I don't know what the same.

213

00:27:56.700 --> 00:27:59.940

Fred Friedman: Oh no I just see my name in the chat i'm sure.

214

00:28:02.850 --> 00:28:03.570

Illinois Team: I.

215

00:28:11.640 --> 00:28:15.150

Illinois Team: Did i'm Sorry, I think I got disconnected for a second.

216

00:28:17.070 --> 00:28:18.630

Illinois Team: This is like my worst Internet Day.

217

00:28:20.640 --> 00:28:32.760

Illinois Team: So I am I am open to either process I also, I think, in my sort of leadership style what want that decision to be made by us, which is next on the next conversation on the agenda.

218

00:28:35.550 --> 00:28:44.730

Illinois Team: When the composition was created the representation, I for me fell into you are the voting Member as you're representing these various stakeholder groups.

219

00:28:45.090 --> 00:28:52.770

Illinois Team: So that's how i'm identifying who's voting now the idea of are we going to use robert's rules are what are our.

220

00:28:53.670 --> 00:28:58.920

Illinois Team: Member responsibility and right, so to speak, is the next agenda item so.

221

00:28:59.400 --> 00:29:14.970

Illinois Team: I you know I see myself as a facilitator and I want to support what's best for the group I would love to consensus bill, but I also know that that could be you know, conversely, intense and be two hours later, we still haven't made a decision right so.

222

00:29:16.470 --> 00:29:25.020

Illinois Team: I want this and that's why most of the meeting is around like our structure and infrastructure of the things movie for so that these things can become clear.

223

00:29:26.340 --> 00:29:46.920

Fred Friedman: And just to respond to what does the Charter, which is always of the continuum of the Chicago continue on with cheer says that all meetings of Chicago continuum care, not just the board follows robert's rules of latest version of problems.

224

00:29:48.810 --> 00:29:55.230

Fred Friedman: um we have created a there seems to be different rules for workgroups.

225

00:29:57.570 --> 00:30:08.760

Fred Friedman: And so I frequently go to meetings, and I say is this a meeting of the Chicago continuum of care, or is this a work group and I get different answers.

226

00:30:10.590 --> 00:30:12.270

Fred Friedman: Because no one really paste.

227

00:30:13.620 --> 00:30:14.010

Fred Friedman: So.

228

00:30:15.180 --> 00:30:23.310

Fred Friedman: And again, there is a an ongoing arch debate over what rules of procedure which follow smile.

229

00:30:27.660 --> 00:30:28.350

Illinois Team: Go ahead and lower.

230

00:30:30.690 --> 00:30:34.680

Laura Bass she/her: So I would actually raised my hand to speak to the emotion.

231

00:30:36.360 --> 00:30:45.870

Laura Bass she/her: When we're ready for that, so I don't want to derail the conversation about about how we're making decisions, but before we i'd like to stick to the motion before we vote on it.

232

00:30:48.300 --> 00:31:01.260

Illinois Team: Well, I mean if we're going to go by consensus building this would be the perfect time if we're going to use robert's rules it

technically hasn't gotten a second, so you know motion is a lot, but I definitely want to hear from you.

233

00:31:01.560 --> 00:31:09.240

Laura Bass she/her: yeah so I was the person who suggested including a children's health care provider and I, my intention and suggested that was actually to add them as a voting Member.

234

00:31:10.020 --> 00:31:12.600

Laura Bass she/her: Okay, as we do have I know we have.

235

00:31:15.150 --> 00:31:23.730

Laura Bass she/her: You know other medical providers, and you know I don't want to make the assumption like what folks area focuses, but just want to you know wanted to recommend that as as.

236

00:31:25.140 --> 00:31:27.210

Laura Bass she/her: A group to be included in the voting members.

237

00:31:29.610 --> 00:31:35.610

Illinois Team: So, then, the motion or the goal would be to include all three of those stakeholders is voting members.

238

00:31:36.810 --> 00:31:41.070

Illinois Team: think that you know, I have no corn with that we can add them to the list.

239

00:31:42.660 --> 00:31:51.030

Illinois Team: Do you folks want to do an official role car or we does anyone have any objections to that, let me just ask that question directly, are there any.

240

00:31:52.170 --> 00:31:57.060

Illinois Team: objections to those three stakeholders being included into this group as voting members.

241

00:32:00.630 --> 00:32:01.890

Illinois Team: Saying none.

242

00:32:03.210 --> 00:32:09.360

Illinois Team: I think we can by consensus, adapt those three into our.

243

00:32:10.380 --> 00:32:20.700

Illinois Team: stake privatization workgroup composition, thank you all for that you know for the various reasons identified in both the survey and from what colleen said I think those.

244

00:32:21.720 --> 00:32:24.540

Illinois Team: perspectives invoices are very important.

245

00:32:25.860 --> 00:32:34.440

Illinois Team: So we've already done, the public health presentation like this is remember responsibilities is our next conversation.

246

00:32:35.670 --> 00:32:55.740

Illinois Team: So this so as I mentioned, we did a survey Thank you all who participated, this was the results of those surveys from you know all of you all right so some folks had very strong opinions about having rules in place in order to be a voting Member in this group.

247

00:32:57.000 --> 00:33:07.320

Illinois Team: Related to you know if you miss more than two meetings okay that voting right i'm having to attended 75 or 80% of the meetings.

248

00:33:10.830 --> 00:33:16.380

Illinois Team: You know the idea that quorum is you know half plus one for us.

249

00:33:16.860 --> 00:33:27.900

Illinois Team: There were some other folks I felt like having sort of attendance expectations that relate or that align with revoking voting rights shouldn't be in place, because you know as people.

250

00:33:28.440 --> 00:33:38.160

Illinois Team: are focusing a lot of things in this capacity, issues that as long as people are doing their due diligence by you know, reading the materials watching the recordings reading the Minutes.

251

00:33:38.460 --> 00:33:53.400

Illinois Team: That they should still be able to make that building decision as a stakeholder and then there was some perspective around if you know you're going to miss a meeting asking someone from this stakeholder group to be in place as that sort of proxy.

252

00:33:55.260 --> 00:34:04.800

Illinois Team: From that group, and then I think the one the two places that I did see consensus on particularly Robin LSE was that the LSE would be exempt from that sort of attendance requirement.

253

00:34:05.250 --> 00:34:26.400

Illinois Team: And then another participant mentioned having folks from the youth advisory board be exempt in that same space to so these were literally the results from our survey, and so you know we can adopt these as we see fit, we can talk about like the yay or nay of these.

254

00:34:28.170 --> 00:34:31.470

Illinois Team: Because like I said I don't want to make the decision for us, I want this to be.

255

00:34:34.050 --> 00:34:36.420

Illinois Team: thoughts questions concerns critiques.

256

00:34:42.240 --> 00:34:43.200

Illinois Team: comments.

257

00:34:45.600 --> 00:34:50.400

Illinois Team: I mean i'm particularly interested in this sort of forfeiting voting rights i'm.

258

00:34:51.810 --> 00:34:59.010

Illinois Team: conversations and, particularly, you know when we think about what the point Fred made around certain groups function from the Consensus building.

259

00:34:59.640 --> 00:35:07.200

Illinois Team: And then, others are fully functioning from robert's rules of order, you know, this is a you know very important thing.

260

00:35:07.620 --> 00:35:20.790

Illinois Team: If people do miss say you're you're out sick or on FM la you know and you're sort of out for maternity leave things of this nature, what does that mean to forfeit voting rights and how you all feel about that.

261

00:35:31.680 --> 00:35:33.240

Illinois Team: Any thoughts.

262

00:35:35.730 --> 00:35:38.340

Beth Horwitz, she/her/hers: You want to jump in I think your hands up before man.

263

00:35:38.850 --> 00:35:59.820

Kathy Booton Wilson, she/her/hers: Oh thanks Dan um yeah so I can just give a perspective from a previous eeoc committee that I was on they did eventually implement rules like this, and I can, so the reason those rules were implemented was because this was a committee that was voting on some.

264

00:36:00.960 --> 00:36:12.030

Kathy Booton Wilson, she/her/hers: contentious topics and what would happen is people would not come to meetings for maybe several months of the year, when the discussion was more boring.

265

00:36:12.420 --> 00:36:23.940

Kathy Booton Wilson, she/her/hers: And then they would show up at the times of the year, when there was going to be votes on important topics and vote having missed all of the work that was done.

266

00:36:24.120 --> 00:36:25.290

Kathy Booton Wilson, she/her/hers: During those other months.

267

00:36:25.740 --> 00:36:35.280

Kathy Booton Wilson, she/her/hers: And then the other issue was that people would show up at meetings, having missed several meetings and not really be up to date on what was going on.

268

00:36:35.910 --> 00:36:55.740

Kathy Booton Wilson, she/her/hers: And we'd have to spend a lot of time in every meeting bringing people up to speed, which was not the best use of time for those who had been coming to the meetings all along so that's just a perspective from from a committee that did adapt voting rules.

269

00:37:00.180 --> 00:37:00.450

Beth Horwitz, she/her/hers: I would.

270

00:37:01.860 --> 00:37:10.920

Beth Horwitz, she/her/hers: I would, second, that I think it's for all of those reasons I think I would be interested in having sort of shared expectations, I think you know.

271

00:37:11.550 --> 00:37:19.080

Beth Horwitz, she/her/hers: It is not with the intention of preventing participation, I think that, like your people interested in being supportive and inclusive.

272

00:37:19.530 --> 00:37:26.640

Beth Horwitz, she/her/hers: So I don't think like the big one meeting is the like then you're out, but I do think to kathy's point.

273

00:37:27.210 --> 00:37:40.740

Beth Horwitz, she/her/hers: When you miss meeting you miss conversation, and if there's no one here to provide the through line, then we all just keep having the same conversation over and over again and it's a lot of wasted time for the folks who keep coming.

274

00:37:41.760 --> 00:37:49.410

Beth Horwitz, she/her/hers: And we don't get to the outcomes that we're hoping for, and I think to that I guess the various examples you provided Donna, I think.

275

00:37:49.890 --> 00:37:56.100

Beth Horwitz, she/her/hers: If someone's out on SLA pursue this and extended time period I would think about where you would get a sub like I think.

276

00:37:56.310 --> 00:38:04.890

Beth Horwitz, she/her/hers: Like I don't know that's a long time to just not be in a in a group and I wouldn't want that perspective right like art of why there's all these people here are not like.

277

00:38:05.550 --> 00:38:12.810

Beth Horwitz, she/her/hers: i'm not here because i'm Ben Horowitz and here because I work on a to my ass and bring that perspective to some of this, and so, if I wasn't here it's.

278

00:38:13.440 --> 00:38:22.590

Beth Horwitz, she/her/hers: it's important that he is still has a perspective in this space, and the same way that folks who are from affinity groups also need to bring the perspective because we're trying to be valid.

279

00:38:23.040 --> 00:38:32.070

Beth Horwitz, she/her/hers: For the many different people who are navigating our system and need to be prioritized for housing as well, I think, especially if someone who needs an extended leave.

280

00:38:32.730 --> 00:38:41.280

Beth Horwitz, she/her/hers: just want to quickly replace them so that the meetings, continue to be a robot and that we are all holding each other accountable that like this is.

281

00:38:41.640 --> 00:38:54.720

Beth Horwitz, she/her/hers: contentious it's important it's like the third rail of the homeless response system because invariably we can't prioritize everyone, and so, with it's important that this process feel like it was.

282

00:38:55.890 --> 00:38:56.160

Beth Horwitz, she/her/hers: sort of.

283

00:38:57.600 --> 00:39:08.520

Beth Horwitz, she/her/hers: thoughtful and inclusive consistently, so I think like I would I would echo kathy's idea, and what we all know that in on like I think there should be a certain expectation.

284

00:39:08.910 --> 00:39:17.910

Beth Horwitz, she/her/hers: That folks show up, and I think, to the question of local and local I also agree to live that very clearly says like fast forward ah my ass.

285

00:39:18.600 --> 00:39:30.960

Beth Horwitz, she/her/hers: Capitalism wilton women's affinity group so there's no confusion about like why folks are here and maybe i'm wrong that Kathy to be the woman's affinity group I don't even know, but like we.

286

00:39:31.410 --> 00:39:40.200

Beth Horwitz, she/her/hers: We want everyone to over the team what went through this process and and how the decisions get made so I.

287

00:39:42.060 --> 00:39:44.760

Beth Horwitz, she/her/hers: No one's gonna like the outcome of this pub these meetings like.

288

00:39:45.930 --> 00:39:52.110

Beth Horwitz, she/her/hers: Because there's no prioritization that says we get to just give everyone housing, so they think it's.

289

00:39:53.220 --> 00:39:56.550

Beth Horwitz, she/her/hers: For the good to have it sort of really explicit.

290

00:40:01.770 --> 00:40:11.370

Fred Friedman: Why she best summed up the problem so there's a inherent conflict between thoughtful and inclusive.

291

00:40:12.810 --> 00:40:27.570

Fred Friedman: So beth and and Cathy is, of course, absolutely right, the best thing to do would be to have people who have endless amounts of time and endless ability to participate in these discussions.

292

00:40:29.100 --> 00:40:32.040

Fred Friedman: normal people, people who don't make their living.

293

00:40:33.390 --> 00:40:36.570

Fred Friedman: Doing this or people like me who are.

294

00:40:37.680 --> 00:40:40.740

Fred Friedman: disabled and unable to function, all the time.

295

00:40:41.790 --> 00:40:43.050

Fred Friedman: can't do that.

296

00:40:44.580 --> 00:40:54.270

Fred Friedman: So if we want to be inclusive and we we include everyone, and also in here and in the discussion that we will have.

297

00:40:55.290 --> 00:41:01.530

Fred Friedman: That we have throughout the continuum of care is the question of the conflict of interest those chairs.

298

00:41:02.430 --> 00:41:19.590

Fred Friedman: So some people are saying that the only people who are involved in continuum of care, these days are people who have a personal interest of the session it's, not even a personal, professional interest that's their job they're representing an agency or they're representing.

299

00:41:22.800 --> 00:41:24.000

Fred Friedman: group that has.

300

00:41:25.530 --> 00:41:32.940

Fred Friedman: A point of view, and they and their job is to implement that point get that point of view covered.

301

00:41:34.320 --> 00:41:37.710

Fred Friedman: That leads to people being very.

302

00:41:38.790 --> 00:41:42.210

Fred Friedman: very unhappy and again as best said.

303

00:41:45.570 --> 00:41:52.800

Fred Friedman: No one will be happy with the results and people who will be most unhappy with results are the people who don't get hacked.

304

00:41:55.440 --> 00:41:56.850

Fred Friedman: And so, for most of.

305

00:41:56.850 --> 00:41:59.070

Fred Friedman: us this isn't an existential question.

306

00:42:00.240 --> 00:42:02.550

Fred Friedman: But for those people it isn't.

307

00:42:04.920 --> 00:42:09.510

Fred Friedman: Those are the people who are least likely to be able to follow.

308

00:42:11.430 --> 00:42:14.460

Fred Friedman: rules that are now that you're proposing.

309

00:42:16.890 --> 00:42:17.190

Thank you.

310

00:42:18.480 --> 00:42:19.230

Illinois Team: Thank you Fred.

311

00:42:19.350 --> 00:42:25.950

Beth Horwitz, she/her/hers: This is one clarification Fred we did having it rules that are different sorts of scope of experience when folks without lifting.

312

00:42:26.820 --> 00:42:27.060

Do.

313

00:42:28.200 --> 00:42:34.140

Fred Friedman: You have a different set well you're proposing a different set of rules for people who are members of the lived experience Council.

314

00:42:35.340 --> 00:42:38.130

Fred Friedman: They may or not, the people who are.

315  
00:42:38.340 --> 00:42:38.580  
Pro.

316  
00:42:41.460 --> 00:42:43.410  
Fred Friedman: At least as I understood what you propose.

317  
00:42:44.850 --> 00:42:45.510  
Fred Friedman: That is not.

318  
00:42:47.400 --> 00:42:48.720  
Fred Friedman: is not nearly the same.

319  
00:42:48.900 --> 00:42:49.860  
Beth Horwitz, she/her/hers: hair amendment.

320  
00:42:50.700 --> 00:42:51.000  
What.

321  
00:42:52.170 --> 00:42:52.380  
Fred Friedman: well.

322  
00:42:54.690 --> 00:43:05.820  
Beth Horwitz, she/her/hers: yeah, yes, but it's not just focus on the  
elysee or yeah but that it is people who are experiencing homelessness or  
at risk of experiencing homelessness which may be inclusive of elysee in  
the APP.

323  
00:43:06.450 --> 00:43:25.980  
Beth Horwitz, she/her/hers: Who, who has that exception I think makes a  
lot of sense as a as a modification because it's a different sort of  
expectation of a lot of us who are here through our goals in our place of  
employment, so yeah I think that is an adjustment to the set of  
guidelines make them.

324  
00:43:30.960 --> 00:43:32.430  
Illinois Team: thoughts.

325  
00:43:33.810 --> 00:43:44.040  
Illinois Team: me some folks we haven't heard from have strong opinions  
or thoughts about what it means to be a voting member of this committee  
this work group.

326

00:43:56.520 --> 00:44:00.720

Illinois Team: So I mean these particular points.

327

00:44:02.910 --> 00:44:08.190

Illinois Team: are not all related to the same thing so like, for example, what did, how do we define corn.

328

00:44:10.110 --> 00:44:12.750

Illinois Team: You know the suggestion was half plus one.

329

00:44:13.890 --> 00:44:27.720

Illinois Team: You know how folks feel about that particular because I mean if this is a matter of like we can get sort of go down and process of elimination take out certain things that we are very strong.

330

00:44:29.250 --> 00:44:37.710

Illinois Team: In that they should be a part of our group, we shouldn't or folks you know are indifferent to, then you know we can sort of work from there, but.

331

00:44:40.350 --> 00:44:47.610

Illinois Team: Or you know, are you all wanting sort of see sh to make these decisions about what Member responsibilities are you know.

332

00:44:48.960 --> 00:44:53.850

Illinois Team: just want us to gather perspective I think that's my important piece.

333

00:45:01.350 --> 00:45:02.820

Illinois Team: Any thoughts.

334

00:45:09.810 --> 00:45:12.810

Illinois Team: So seem as though there's like no.

335

00:45:14.310 --> 00:45:20.820

Illinois Team: perspective, I mean we can make the decisions you know we can go back and make what it means to be a voting Member.

336

00:45:22.800 --> 00:45:28.200

Illinois Team: As we move forward in relation to the conversation that was just presented today.

337

00:45:29.310 --> 00:45:31.080  
Illinois Team: How folks feel about bad idea.

338

00:45:36.030 --> 00:45:53.790  
Laura Bass she/her: yeah I just I would also like to vote voice support for attendance expectations for those of us who are paid to be here, coordinated entry is really complicated, and you know life happens, but I think it's important that we prioritize being here, getting a alternate when that's not possible.

339

00:45:56.670 --> 00:46:00.210  
Illinois Team: Thank you for that more anyone else, before we move forward.

340

00:46:00.660 --> 00:46:13.290  
Megan Wickman (she/they): It just like to lift up john if you could I appreciate having the list of names and who's representing which affinity group or stakeholder so that we just have some clarity about who who in the room is voting.

341

00:46:14.220 --> 00:46:23.490  
Illinois Team: yeah we can include that in our agenda moving forward i'm so that is like available every meeting that would be helpful for folks.

342

00:46:25.860 --> 00:46:28.560  
Illinois Team: Okay, great anyone else, before we move on.

343

00:46:33.600 --> 00:46:35.790  
Illinois Team: So let me go to the next slide.

344

00:46:37.770 --> 00:46:51.420  
Illinois Team: This was really about sort of getting into the meat of the thing, so you know, creating the infrastructure understanding, where we are what it means to be a voting Member our value system and all that start looking at.

345

00:46:52.290 --> 00:46:53.940  
Illinois Team: Our product division and or.

346

00:46:54.780 --> 00:46:57.690  
Illinois Team: Lady making the decision about prioritization.

347

00:46:57.690 --> 00:46:58.140  
So.

348

00:46:59.820 --> 00:47:13.410

Illinois Team: The request is, are there any data or resource needs that we have for our next meeting when we really start having the conversation and diving deeper into what our participation means for Chicago.

349

00:47:14.310 --> 00:47:14.760

Megan Wickman (she/they): Can I.

350

00:47:15.510 --> 00:47:16.530

Megan Wickman (she/they): see your screen.

351

00:47:17.160 --> 00:47:19.110

Illinois Team: Oh, my goodness okay.

352

00:47:20.370 --> 00:47:21.630

Illinois Team: My Internet it's just.

353

00:47:24.060 --> 00:47:25.050

Illinois Team: it's not working today.

354

00:47:28.260 --> 00:47:30.720

Illinois Team: Okay, thank you for letting them.

355

00:47:31.890 --> 00:47:34.650

Illinois Team: So just wanting to gauge from the group right.

356

00:47:35.970 --> 00:47:46.350

Illinois Team: What are our needs what pieces of information, what resources what data, do we want to have to give to the committee, so that you know as we dive deeper into the.

357

00:47:47.070 --> 00:47:56.220

Illinois Team: conversation about our current entry system, our participation that folks feel like they can make a more informed decision now.

358

00:47:56.490 --> 00:48:05.430

Illinois Team: This data need a resource need will probably grow and continue to grow, but just thinking about like our next meeting for 21st right like.

359

00:48:06.030 --> 00:48:17.820

Illinois Team: Who, you know have hopefully all of our sort of infrastructure things clean here and moving forward from that space that so we can really sort of dive into the The goal of this group so.

360

00:48:18.570 --> 00:48:25.680

Illinois Team: Wanting to give folks space to think about are there resources or data needs that we like, for example, if there are specific.

361

00:48:26.760 --> 00:48:33.810

Illinois Team: data that we have to you know, do the data request or report request from hdmi as we need some time to sort of prepare for that.

362

00:48:35.190 --> 00:48:38.100

Illinois Team: So this is, if you all have any thoughts about that.

363

00:48:40.950 --> 00:48:45.390

Illinois Team: Let me know it's not the only time you can let me know, but I think, give me a space for that.

364

00:48:54.810 --> 00:48:58.290

Illinois Team: Any thoughts any David needs request that we want to make.

365

00:49:00.330 --> 00:49:08.070

Kathy Booton Wilson, she/her/hers: Jana this is Kathy and i'm not sure i've thought this through completely but i'm wondering if there is data on.

366

00:49:09.390 --> 00:49:21.930

Kathy Booton Wilson, she/her/hers: The CES placement into rapid rehousing MPs age, under the current aren't you organization, broken down by say, gender, race.

367

00:49:23.370 --> 00:49:26.850

Kathy Booton Wilson, she/her/hers: You know some of the real basic demographics.

368

00:49:32.130 --> 00:49:38.700

Kathy Booton Wilson, she/her/hers: And I am thinking that would be helpful, but I need to think about it, some more too so i'm just kind of throwing that out there.

369

00:49:45.660 --> 00:50:00.360

Beth Horwitz, she/her/hers: I would wonder if we want to even take a step further back, which is to say, what are the demographics, of the people in the system, what do we know about them, because they think you know Kathy Kathy sort of articulation tells us who is being served now.

370

00:50:02.160 --> 00:50:12.690

Beth Horwitz, she/her/hers: which may or may not be the sort of problem question of whether is it is it what we're serving now that we're trying to understand better of weather like who it worked or didn't work or are we trying to think about.

371

00:50:13.830 --> 00:50:16.140

Beth Horwitz, she/her/hers: Who, we want the system to work for.

372

00:50:18.120 --> 00:50:36.600

Beth Horwitz, she/her/hers: So I wonder whether maybe both and or sort of a higher level step for folks to understand like information about the people who are accessing our homeless response system to helpful and then you could see a sort of that Kathy articulated.

373

00:50:37.770 --> 00:50:41.340

Beth Horwitz, she/her/hers: Where our system is currently falling short on that, but I.

374

00:50:43.200 --> 00:50:46.260

Beth Horwitz, she/her/hers: wonder if the broader perspective, it is helpful.

375

00:50:49.560 --> 00:50:55.410

Kathy Booton Wilson, she/her/hers: That this is Kathy that makes sense to me having some kind of comparative data I think would be good.

376

00:51:00.330 --> 00:51:01.950

Illinois Team: Any other thoughts.

377

00:51:02.370 --> 00:51:02.700

Megan Wickman (she/they): I have a.

378

00:51:02.880 --> 00:51:07.170

Megan Wickman (she/they): I was i'm sorry I don't know how to raise my hand on the zoom now um.

379

00:51:08.550 --> 00:51:10.800

Megan Wickman (she/they): I would love to see um.

380

00:51:12.090 --> 00:51:17.280

Megan Wickman (she/they): If it's possible how many folks are on coordinated entry that are not enrolled in a project.

381

00:51:19.320 --> 00:51:24.150

Megan Wickman (she/they): And I would also like to see how many folks on coordinated entry given.

382

00:51:25.230 --> 00:51:27.480

Megan Wickman (she/they): The current prioritization.

383

00:51:29.640 --> 00:51:33.240

Megan Wickman (she/they): are not eligible for a housing Program.

384

00:51:36.330 --> 00:51:37.890

Illinois Team: Based on a high risk.

385

00:51:40.050 --> 00:51:45.840

Megan Wickman (she/they): be based on I guess from my understanding, depending on length of homelessness.

386

00:51:46.260 --> 00:51:48.840

Megan Wickman (she/they): Somebody may not be eligible.

387

00:51:49.800 --> 00:52:01.110

Megan Wickman (she/they): for rapid rehousing or transitional housing, but don't have a diagnosis, disability, so when be categorically ineligible for P sh and i'd like to see how many people, that is.

388

00:52:02.490 --> 00:52:07.350

Beth Horwitz, she/her/hers: megan just as a note that has not been true for the duration of the temporary prioritization.

389

00:52:07.770 --> 00:52:10.020

Megan Wickman (she/they): was a true prior to temporary position.

390

00:52:10.080 --> 00:52:14.190

Beth Horwitz, she/her/hers: It was true in the old prioritization that there were.

391

00:52:14.760 --> 00:52:26.580

Beth Horwitz, she/her/hers: We, we had a priority for who was eligible for PS age and a priority of who was eligible for rapid rehousing in the old version and there was to your point I space of time, but if it wasn't.

392

00:52:27.270 --> 00:52:32.550

Beth Horwitz, she/her/hers: If it was you've been experiencing homelessness for too long, but we're not chronic you for the cell in no man's land.

393

00:52:32.880 --> 00:52:36.930

Beth Horwitz, she/her/hers: But that has not been the case for the temporary prior condition so again, I think the question of.

394

00:52:37.290 --> 00:52:54.600

Beth Horwitz, she/her/hers: Do we are we trying to debunk whether the old one was good or not, are we trying to figure out how to know what we want to accomplish moving ahead, so I think like it's a it's a caution, for us to not get back there and come up with one, but I don't know if that's helpful yeah.

395

00:52:54.930 --> 00:52:58.590

Megan Wickman (she/they): i'm just afraid we're gonna go back there and I want to stop us from doing that.

396

00:53:04.800 --> 00:53:09.300

Fred Friedman: Related to that is the tradition of homeless.

397

00:53:11.340 --> 00:53:21.990

Fred Friedman: So there were at least prior to these new rules, there were different rules that had had for defining who is homeless.

398

00:53:23.370 --> 00:53:29.610

Fred Friedman: at all, so it was entirely possible for a student who is a member of.

399

00:53:31.320 --> 00:53:38.010

Fred Friedman: The shadow for student to be homeless and her parents, not to be homeless.

400

00:53:39.420 --> 00:53:58.590

Fred Friedman: So that students theoretically would be eligible for a benefit and then persons, apparently, so I guess, we would still need a sort of this is endlessly painful definition of homeless and what we mean when we say that a person means housing.

401

00:54:00.150 --> 00:54:10.530

Illinois Team: So is the request to find information on like who's withholding capture within our system that don't meet definition.

402

00:54:12.720 --> 00:54:15.540

Fred Friedman: answer your your question to me.

403

00:54:16.260 --> 00:54:25.710

Illinois Team: Is the goal to get data or information about those who have maybe completed an assessment, but don't meet homeless definition.

404

00:54:26.850 --> 00:54:31.170

Fred Friedman: I mean, so the goal would be to share the definition of homeless.

405

00:54:32.610 --> 00:54:46.170

Fred Friedman: and see if different different definitions are used in different places, can we frequently talk about hmm is frequently talks about the number of homeless people the number, but that.

406

00:54:46.320 --> 00:54:47.400

Fred Friedman: got really involved.

407

00:54:48.540 --> 00:54:50.040

Fred Friedman: That makes sense, thanks.

408

00:54:51.090 --> 00:54:53.280

Illinois Team: Yes, absolutely Thank you so much.

409

00:54:56.160 --> 00:55:07.110

Illinois Team: Any other thoughts and you know as i'm sure you don't have you know if you think of something tomorrow feel free to let me know or email me and we can see if we can get that.

410

00:55:08.850 --> 00:55:09.420

Laura Bass she/her: There was a.

411

00:55:09.450 --> 00:55:10.860

Laura Bass she/her: Data request that.

412

00:55:12.300 --> 00:55:12.810

Laura Bass she/her: Oh sorry.

413

00:55:15.990 --> 00:55:20.520

Laura Bass she/her: I was just saying so I know the collaborative unhealed publicist had a data request, so I can send that.

414

00:55:21.720 --> 00:55:33.690

Laura Bass she/her: And the other thing I think, would it be helpful to understand, because I feel like this kind of so there's I think understanding the people in our current system we kind of what Megan and Fred were talking about like.

415

00:55:35.280 --> 00:55:49.260

Laura Bass she/her: wouldn't be eligible or prioritized for current for housing interventions kind of given our current prioritization, but I think it would also be helpful to understand just historically how what percentage of people who.

416

00:55:50.670 --> 00:55:55.530

Laura Bass she/her: Who do come into contact with the homeless service system ever get a housing referral through.

417

00:55:57.030 --> 00:56:01.410

Laura Bass she/her: Coordinated entry or whoever, or how many actually get house or coordinated entry.

418

00:56:03.450 --> 00:56:06.360

Laura Bass she/her: understanding that getting a referral getting House are two different things.

419

00:56:07.980 --> 00:56:08.040

Illinois Team: hmm.

420

00:56:09.030 --> 00:56:14.760

Laura Bass she/her: Because my understanding is it's a relatively small percentage, and I think it's just a helpful thing to understand in the big picture.

421

00:56:16.770 --> 00:56:26.730

Laura Bass she/her: Is that if we're not you know we're not currently housing, the majority of people that are touching the system, and you know part of that is is.

422

00:56:27.960 --> 00:56:33.780

Laura Bass she/her: prioritization part of it is, is obviously just lack of resources and probably other things.

423

00:56:37.350 --> 00:56:39.480

Illinois Team: I see in the chat um there was a.

424

00:56:41.610 --> 00:56:46.350

Illinois Team: Point brought up about the number of folks double up, so thank you for that.

425

00:56:47.490 --> 00:56:55.950

Illinois Team: He other resources or data stuff that you think would be good for us to bring to the Community to feel more informed.

426

00:56:57.750 --> 00:57:05.190

Illinois Team: I you know I, I think it was when I was sort of in that with the oh composition and new and talk to folks about.

427

00:57:06.300 --> 00:57:10.410

Illinois Team: Looking at our housing assessments like if you've never done that.

428

00:57:11.490 --> 00:57:16.230

Illinois Team: i've you know strongly suggest that folks do that it is on our.

429

00:57:18.000 --> 00:57:24.600

Illinois Team: Credit entry leadership, I mean are coordinated entry website, and I can send out those paper copies.

430

00:57:25.980 --> 00:57:37.500

Illinois Team: To that because yeah and thank you Maggie yes, you know the assessment is different parts are part demographic for families for singles or things of that nature i'm.

431

00:57:39.990 --> 00:57:44.940

Illinois Team: Just enough, you have a point do you want to come off mute I can read it out loud if you can't.

432

00:57:47.760 --> 00:57:50.250

Justine Allenbach [she/her]: yeah I can come off mute can you hear me okay.

433

00:57:51.750 --> 00:57:52.650  
Illinois Team: Yes, thank you.

434

00:57:53.700 --> 00:58:01.920  
Justine Allenbach [she/her]: yeah I was just i'm just going to second  
laura's point of this meeting, being a good opportunity for us to also.

435

00:58:02.760 --> 00:58:14.700  
Justine Allenbach [she/her]: Think about the lack of resources that we  
have, I do think it's it'll be good for us to look at maybe not only how  
many people were housed through CES.

436

00:58:15.390 --> 00:58:27.150  
Justine Allenbach [she/her]: Through the temporary prioritization but  
potentially before the temporary prioritization before the coven 19  
pandemic, as well as we might be looking at funding and availability.

437

00:58:29.130 --> 00:58:36.300  
Justine Allenbach [she/her]: Before the pandemic, or what we're going to  
go into will look more so, how that did before, and so I think the  
numbers were.

438

00:58:37.860 --> 00:58:50.430  
Justine Allenbach [she/her]: Really low before the pandemic, we were only  
matching approximately 14% of people that were actually assessed so  
that's something to consider also when we think about.

439

00:58:51.330 --> 00:59:00.990  
Justine Allenbach [she/her]: You know how in depth, we need to go through  
this conversation if we have a lot of people just meeting that initial  
chronic homelessness definition and can we.

440

00:59:01.920 --> 00:59:17.550  
Justine Allenbach [she/her]: save time, in a sense of just starting, and  
looking at that population versus thinking in a scope that we have  
endless resources when we unfortunately don't so just want to put that  
number out there, thanks.

441

00:59:19.080 --> 00:59:19.740  
Illinois Team: Thank you.

442

00:59:22.980 --> 00:59:40.620  
Illinois Team: Alright we're at our sort of other open forum spaces are,  
I want to kind of ask Lord to talk again about represent I don't know the

best way to to to categorize it, but I definitely want you to talk about what you mentioned at the beginning.

443

00:59:41.880 --> 00:59:52.290

Laura Bass she/her: yeah and maybe be helpful to understand, so it sounds like a decision is going to be made about a new lead entity, or at least a recommendation that's going to be made about a new lead and disease soon.

444

00:59:52.950 --> 01:00:05.040

Laura Bass she/her: And there's a committee that's working on that and then there's going to be a transition process which my understanding is the goals that's going to be completed by November and November i'm to the new lead entity and so.

445

01:00:07.950 --> 01:00:11.880

Laura Bass she/her: You know I just thought it would be helpful to ask the Group like do we think we should.

446

01:00:13.530 --> 01:00:25.500

Laura Bass she/her: pause until the new lead lead entity selected and kind of restart with the new legal entity, facilitating do folks feel like there is kind of pre work that we can do that would be useful.

447

01:00:26.280 --> 01:00:31.620

Laura Bass she/her: Maybe looking at some of the data that john was talking about i've also i'm just curious like.

448

01:00:32.400 --> 01:00:44.640

Laura Bass she/her: You know jada like if CSA has a perspective about like what that transition is going to what this would look like if we continue to kind of during that transition and, like, I think, realistically, what CSA just capacity is to support.

449

01:00:46.620 --> 01:00:54.990

Laura Bass she/her: But i'm so I just want us to think about the fact that this big change is about to happen and like what's the best use of the time of everybody on this group.

450

01:01:01.530 --> 01:01:10.200

Andrew Taylor: Or, this is the intro again i'm curious and I, you know I might just not know, but what do you anticipate is that's what you should drawn out, but like what.

451

01:01:11.520 --> 01:01:21.540

Andrew Taylor: What will change about our conversations with a new lead agency like are we anticipating that there will be stuff handed down that will be really different from what's currently going on, or what are some of those like.

452

01:01:22.740 --> 01:01:32.310

Andrew Taylor: What she did the lead level would impact the conversation we're having like cut our conversation continues seamlessly through that transition, or would there be some kind of like definitive job.

453

01:01:37.530 --> 01:01:40.620

Illinois Team: I you know I don't think that there is a.

454

01:01:42.240 --> 01:01:56.430

Illinois Team: specific answer for that and understanding, you know once that lead entity is chosen the what the transition period will look like, I think, is between both parties are all parties involved.

455

01:02:00.210 --> 01:02:01.260

Illinois Team: You know I.

456

01:02:02.580 --> 01:02:13.290

Illinois Team: Maybe maybe it's a leadership staffing like I am one, to support the goals of the group, and that make decisions for what we need to do and when we need to do it right.

457

01:02:14.340 --> 01:02:19.560

Illinois Team: And, and you know, maybe that's that's a lesson learned in my professional development um.

458

01:02:21.000 --> 01:02:31.620

Illinois Team: But I you know we are definitely you know we've been having conversations and met with the selection committee to talk about the plan, but it's it's sort of like understanding that.

459

01:02:32.550 --> 01:02:42.990

Illinois Team: You know that decision hasn't been made about the lead entity, and so what the transition period and then even the response time for that decision being made, I know it.

460

01:02:43.290 --> 01:02:55.350

Illinois Team: is in relation to timing with board meetings and things of that nature so like a fat if those things don't happen in their timeline that's definitely going to affect our ability to and what transition looks like.

461

01:02:56.160 --> 01:03:06.270

Illinois Team: The other part of me is you know feels weird because you know I feel like the sort of unspoken thing is that you know from my understanding.

462

01:03:07.860 --> 01:03:09.930

Illinois Team: You know there's only been one.

463

01:03:11.520 --> 01:03:15.990

Illinois Team: entity that is looking to become the the lead and so.

464

01:03:17.070 --> 01:03:24.420

Illinois Team: understanding that you know folks have been so ingrained in so many pieces of the work that the transition might be incredibly smooth.

465

01:03:25.440 --> 01:03:42.180

Illinois Team: And if we are in a place or workgroup committee that is still meeting to make decisions about something, then that work is just passed over and provided to them lead that lead might decide that they're going to scrap that composition scrap that.

466

01:03:43.830 --> 01:03:52.650

Illinois Team: You know goal, or for facilitation or whatever and create a something different, that you know, obviously you don't control that that is the decision of the new lead.

467

01:03:52.980 --> 01:03:57.000

Illinois Team: But definitely highlighting and working in that transition period about these are.

468

01:03:57.270 --> 01:04:03.810

Illinois Team: These are the things within coordinated entry, this is where we are, and this is the group that is sort of responsible in hand, and I think that's for me why.

469

01:04:04.170 --> 01:04:13.680

Illinois Team: Things in relation to infrastructure and getting policies written as detailed as possible is important so that that new lead can say Okay, I see exactly where things are.

470

01:04:14.250 --> 01:04:31.950

Illinois Team: What stuff in the working folks are in the process, so when I hear the question of do we have capacity um it's hard for me to answer that because some of me is like Why would we because you know we're here to do a job, some me one wonders is that because.

471

01:04:33.090 --> 01:04:41.160

Illinois Team: folks feel like you know the leadership isn't what they want it to be, or should be so it's you know it's really hard for me to answer that.

472

01:04:42.090 --> 01:04:50.670

Illinois Team: I feel like we're here to do the job and that we will do the job until we are contracted to do the job anymore so that's sort of my response to that.

473

01:04:53.280 --> 01:04:53.550

it's.

474

01:04:56.070 --> 01:04:58.860

Illinois Team: just been a fair, so you have your hands up my apologies.

475

01:05:00.390 --> 01:05:03.210

Justine Allenbach [she/her]: yeah thanks um you know I.

476

01:05:04.380 --> 01:05:07.800

Justine Allenbach [she/her]: will only speak to this to some extent because I.

477

01:05:09.030 --> 01:05:16.080

Justine Allenbach [she/her]: Probably have a conflict of interest here with the Center intending to maintain our presence within coordinated entry.

478

01:05:17.340 --> 01:05:41.490

Justine Allenbach [she/her]: Post, the transition to a new lead, but just to sort of share some perspective of the day to day work and what the transition might look like in terms of either moving forward with the prioritization work group now versus post, the new lead agency, I can sort of see.

479

01:05:42.720 --> 01:05:44.370

Justine Allenbach [she/her]: two sides to what.

480

01:05:45.600 --> 01:05:55.650

Justine Allenbach [she/her]: To two benefits on both sides, I should say so, I can see how, if we have the prioritization determined before the new lead agency takes over if we.

481

01:05:56.070 --> 01:06:08.400

Justine Allenbach [she/her]: were able to have the new prioritization decided, maybe a few months before the new lead agency takes over and about November that I think that could be a beneficial thing.

482

01:06:09.060 --> 01:06:14.880

Justine Allenbach [she/her]: So that the new lead agency agency can just dive into how are we going to make the system perform.

483

01:06:15.270 --> 01:06:29.040

Justine Allenbach [she/her]: create the assessment process accordingly in the matching process accordingly to meet the prioritization so would be kind of one element about the transition that wanted, have to be worried about.

484

01:06:30.840 --> 01:06:40.230

Justine Allenbach [she/her]: The other side to that, though, is thinking is it does it make more sense for the lead agency to be a part of creating the prioritization because you'll need that.

485

01:06:40.890 --> 01:06:52.770

Justine Allenbach [she/her]: context for thinking about how to create those processes as well, so the logistics of making the system run the matching the assessments all of those.

486

01:06:53.580 --> 01:07:12.210

Justine Allenbach [she/her]: bits and pieces so but, again, you know, out of transparency there's one agency to my knowledge that's applying the Center has the intend to continue our presence so that's all i'll say about it, but I think I can see benefits on both ends.

487

01:07:13.410 --> 01:07:22.140

Justine Allenbach [she/her]: But what's coming to mind, for me, first, is that if we did have the prioritization decided before the new lead agency takes over that might be.

488

01:07:22.710 --> 01:07:37.410

Justine Allenbach [she/her]: Potentially one kind of less thing that will go into the transition which i'm sure, even though the agency that is applying or the center's been involved in the work, no matter what the transition will be time consuming and challenging so.

489

01:07:38.430 --> 01:07:39.870

Justine Allenbach [she/her]: Just offering that lens.

490

01:07:44.100 --> 01:07:48.030

Illinois Team: anyone else thoughts about what Laura mentioned.

491

01:07:51.540 --> 01:07:53.100

Beth Horwitz, she/her/hers: This is, I I feel like.

492

01:07:54.180 --> 01:08:03.090

Beth Horwitz, she/her/hers: We are we're talking so there's a secret out there, but just to say all Chicago has been very forthcoming we're applying to be the coordinated entry lead.

493

01:08:03.420 --> 01:08:16.020

Beth Horwitz, she/her/hers: And, to the best of our knowledge for the only people applying so to the I guess deference dumb it into secret secret, we are have been telling everyone that we are applying and happy for everyone to know.

494

01:08:17.310 --> 01:08:24.900

Beth Horwitz, she/her/hers: I think you know, there is there is value in a you know continuity of a facilitation style there is value in.

495

01:08:26.040 --> 01:08:32.220

Beth Horwitz, she/her/hers: sort of just continuity of staff support, I think there are a lot of things that tsh is working on and.

496

01:08:32.700 --> 01:08:43.530

Beth Horwitz, she/her/hers: It will say right we started the discussions of having these meetings in December and we're starting that really in July that I don't I do think speaks to a capacity question it's the sex, but like.

497

01:08:43.830 --> 01:08:53.460

Beth Horwitz, she/her/hers: I don't like I don't think we could hide from like if he gets it gets real coordinated entry requires a lot of staff and there's lots of pieces of coordinated entry that we're trying to.

498

01:08:54.000 --> 01:09:00.480

Beth Horwitz, she/her/hers: get results, right now, including wanting of any pilots, and so I do think lauren's question is a good one, which is.

499

01:09:01.110 --> 01:09:08.310

Beth Horwitz, she/her/hers: This where we need tsh is leadership, right now, because I think that's really the question, or do we take a business.

500

01:09:08.880 --> 01:09:20.820

Beth Horwitz, she/her/hers: I don't think it's that far as a minute and the reality is the data request you all just articulated will take a minute to pull together, and I think are there are some questions around to what to what end will the data help us in this process.

501

01:09:21.840 --> 01:09:27.150

Beth Horwitz, she/her/hers: That you know I think is maybe part of the question right like, which is a.

502

01:09:28.500 --> 01:09:39.420

Beth Horwitz, she/her/hers: I guess I doubt we'll have a new prioritization in the next two months and, therefore, if it's going to span sort of to structures, I think that there's the potential for.

503

01:09:40.110 --> 01:09:53.340

Beth Horwitz, she/her/hers: Just a change of processes changes of structure and all of those things, and there are a lot of things that he could be writing down about current policies and procedures that I think could be valuable to the transition.

504

01:09:54.360 --> 01:10:00.720

Beth Horwitz, she/her/hers: And that, within a new lead will will have a sort of different type of capacity in our system to.

505

01:10:02.040 --> 01:10:08.790

Beth Horwitz, she/her/hers: focus on the various pieces of coordinated entry that that are a little bit fracturing all over the place.

506

01:10:10.710 --> 01:10:19.410

Illinois Team: yeah I mean there, I will say there definitely was a learning curve in all of the pieces related to coordinate interest for me in this work.

507

01:10:20.160 --> 01:10:29.280

Illinois Team: The understanding on how, as you know, I think Fred alluded to earlier is like certain decisions are made this way in these spaces and certain other decisions are made a different way in different spaces.

508

01:10:29.820 --> 01:10:34.680

Illinois Team: And I also say that in relation to that timeline presented beth is that.

509

01:10:35.160 --> 01:10:47.880

Illinois Team: When I when this work was presented to me, you know, the first understanding for me is that we can make a decision to see the pH lists, you know up you know uplift this coast to coast crisis and so that was my.

510

01:10:48.300 --> 01:10:57.090

Illinois Team: First, and I guess i'm just saying this to the group that was my first priority is understanding what that means for CDP ah right and.

511

01:10:57.420 --> 01:11:07.140

Illinois Team: Our initial conversations is like well they don't they haven't necessarily identify that and so as well, we can make a decision to then make a decision for us in relation to the thing.

512

01:11:07.500 --> 01:11:14.160

Illinois Team: And that hasn't necessarily been figured out i'm not i'm not presenting it as a sort of excuse, but I think that.

513

01:11:15.540 --> 01:11:23.850

Illinois Team: If there was an identified timeline it was never presented to me about this word and then understanding that we can't move forward into this entity says so.

514

01:11:25.050 --> 01:11:33.210

Illinois Team: For me, was also sort of not a barrier, but very important to understand and dig that through that first.

515

01:11:34.380 --> 01:11:37.050

Illinois Team: And, but I also you know I think the other.

516

01:11:38.400 --> 01:11:56.910

Illinois Team: piece is that you know folks feel like this is not a valuable part of work and time until the new leader suggested, you know that that speaks volumes and I just want to make sure that you know the sort of our CS Community decision is being supported as best as possible.

517

01:12:03.540 --> 01:12:08.280

Illinois Team: So any other thoughts in relation to what lower mentioned.

518

01:12:11.160 --> 01:12:18.300

Illinois Team: It feels like to me that some more details about our transition timeline would be helpful for next meeting.

519

01:12:29.370 --> 01:12:35.430

Illinois Team: Any other this is open forums that other category on our agenda, so any other thoughts.

520

01:12:35.790 --> 01:12:49.410

Jessica Smith she/her/hers: In China, this is JESSICA I don't know how to raise my hand on here, so I just came off of mute, and this is JESSICA from CS H, and also representing the veterans affinity group.

521

01:12:50.550 --> 01:13:03.630

Jessica Smith she/her/hers: My thought is that I mean we, we know that the timeframe is you know, towards the end of this year right so end of November into December, this is July, so I.

522

01:13:04.380 --> 01:13:16.620

Jessica Smith she/her/hers: feel like it's not necessary for us to wait until a transition happens to move this work forward, I think that the prioritization sets.

523

01:13:17.700 --> 01:13:27.750

Jessica Smith she/her/hers: A lot of things in motion, and considering some of the challenges that are existing within coordinated entry, right now, as it relates to filling open units.

524

01:13:29.220 --> 01:13:33.990

Jessica Smith she/her/hers: That it is a priority and that we should not wait.

525

01:13:36.150 --> 01:13:45.090

Jessica Smith she/her/hers: With the understanding that when a transition does occur see sh will in some capacity be available to help with that seamless transition.

526

01:13:46.530 --> 01:13:47.490

Jessica Smith she/her/hers: And so.

527

01:13:49.350 --> 01:13:52.200

Jessica Smith she/her/hers: You know I that's just wanted to add my two cents.

528

01:13:57.120 --> 01:13:57.450

Illinois Team: I think.

529

01:13:57.840 --> 01:14:08.130

Laura Bass she/her: Laura I think this might be a little bit of a and I again i'm open I don't I just think it's something that's important for us to think about I don't necessarily have a super strong.

530

01:14:11.100 --> 01:14:27.870

Laura Bass she/her: Investment when we are the other, I think that, like there are challenges and filling open units, right now, and I, to me, I feel like that should be the priority is like coming up with a short term solution, and then there's like longer term work that needs to happen to identify like.

531

01:14:29.610 --> 01:14:36.720

Laura Bass she/her: What are the parts of the system, the current system that maybe is not aren't working as they should, and what do we need to do to fix that.

532

01:14:39.660 --> 01:14:48.540

Laura Bass she/her: Which is like how much of that is each of my ass data, how much of that is like the behavior of housing providers, how much of that is the current policies and procedures, how much of that is prioritization.

533

01:14:49.290 --> 01:15:01.680

Laura Bass she/her: it's too i'm concerned it like I feel like we need a short term solution, and we, and we also need to be moving forward toward those longer term solutions, and we also need to learn from this iteration of prioritization like what's not working.

534

01:15:02.940 --> 01:15:09.990

Laura Bass she/her: As some folks have said to like figure out how to try to avoid recreating that in the next version of prioritization.

535

01:15:11.760 --> 01:15:13.320

Laura Bass she/her: And so I you know I.

536

01:15:14.910 --> 01:15:26.820

Laura Bass she/her: I think that kind of gets it my question around capacity is like to me, I think the short term, like what do we need to do now to make sure people are getting housing units are going he fell to me that's the priority and maybe it's possible to do both things.

537

01:15:28.110 --> 01:15:29.130

Laura Bass she/her: And if so, that's great.

538

01:15:32.070 --> 01:15:37.380

Andrew Taylor: I enjoy again i'm where I think you make an excellent point, I think.

539

01:15:38.100 --> 01:15:44.370

Andrew Taylor: To me, what it sounds like you just described as like this short term, like the way to get the unit so just to make the prioritization better.

540

01:15:44.730 --> 01:15:53.700

Andrew Taylor: You know, like if that's what the goal is in mind in terms of fixing privatization rate we still want to talk about Kobe and there's other groups that we want to ensure still you know.

541

01:15:54.900 --> 01:16:01.170

Andrew Taylor: Are prioritized through a new prioritization but, like in those conversations all those other things you've mentioned are going to come up.

542

01:16:01.620 --> 01:16:04.020

Andrew Taylor: Right like there's systems behavior there's other stuff.

543

01:16:04.140 --> 01:16:11.610

Andrew Taylor: And you know, is it possible to separate those things into like when they come up like all right likes you know, put it on a sticky note.

544

01:16:12.360 --> 01:16:20.400

Andrew Taylor: And then we keep talking about the prioritization but like once we have something that is filling beds like, then we can talk about the list of sticky notes, we have right, I feel like.

545

01:16:21.000 --> 01:16:27.540

Andrew Taylor: I mean, I feel like we already done that several times like it just in this meeting, and if the group is able to do that moving forward that feels like it'll be really effective.

546

01:16:34.470 --> 01:16:37.740

Illinois Team: yeah I definitely support a parking lot.

547

01:16:40.710 --> 01:16:41.130  
Illinois Team: sort of.

548

01:16:44.280 --> 01:16:49.830  
Illinois Team: topics and issues and concerns and barriers within our system, because that can be presented to the leadership team.

549

01:16:50.910 --> 01:16:56.130  
Illinois Team: And the recommendations are presented about prioritization, we can say, well, we think these are some other places that.

550

01:16:57.510 --> 01:17:00.870  
Illinois Team: You know sort of needs to be tightened up in relation to coordinated entry.

551

01:17:04.950 --> 01:17:05.220  
1773\*\*\*\*543: Other.

552

01:17:09.540 --> 01:17:12.030  
1773\*\*\*\*543: As we go on, I was just.

553

01:17:13.110 --> 01:17:17.790  
1773\*\*\*\*543: Thinking maybe as a worker, we can come up with just a few.

554

01:17:19.140 --> 01:17:22.350  
1773\*\*\*\*543: Privatization ideas advanced tool sets that.

555

01:17:25.440 --> 01:17:29.850  
1773\*\*\*\*543: went when they're actually a form as the movie industry.

556

01:17:34.710 --> 01:17:38.490  
Illinois Team: yeah you know I, I think that depends on.

557

01:17:41.040 --> 01:17:44.820  
Illinois Team: Somewhat of the decision of the group, and yes, I you know, I think that.

558

01:17:47.040 --> 01:17:56.550  
Illinois Team: The transition will absolutely involve this work and this topic, if the decision is to be made before then or not absolutely continue in that.

559

01:17:57.960 --> 01:18:01.110

Illinois Team: In that transition stuff.

560

01:18:02.610 --> 01:18:03.930

Illinois Team: Any other.

561

01:18:05.160 --> 01:18:06.750

Illinois Team: ideas, thoughts.

562

01:18:20.400 --> 01:18:26.190

Illinois Team: So our next meeting is July 21 we will be meeting twice a month.

563

01:18:27.270 --> 01:18:45.780

Illinois Team: The second and third only second and fourth excuse me Thursdays at two i'm going to give myself a tutorial on zoom so that folks will have had offered or authorization or concerns that they have logging in today, and my apologies again to the group for that.

564

01:18:47.160 --> 01:18:52.980

Illinois Team: But I thank you all for your perspectives your input and participation in today's meeting.

565

01:18:55.140 --> 01:19:01.050

Chris OHara: yeah and jonna I want to say thanks for promoting this ship up today with your T shirt.

566

01:19:02.040 --> 01:19:02.700

Illinois Team: yeah I.

567

01:19:03.720 --> 01:19:05.640

Illinois Team: had to go back to my roots Chris.

568

01:19:06.690 --> 01:19:08.130

Illinois Team: So yeah.

569

01:19:10.380 --> 01:19:13.260

Illinois Team: All right, thank you all so much for attending today.

570

01:19:21.690 --> 01:19:22.350

Justine Allenbach [she/her]: Thanks john.
