

Supportive Housing Research Bibliography of Sources – 2020 to 2025

The growth of supportive housing over the last 30 years has been built on a foundation of research showing that it provides core benefits to people and communities. CSH compiled this list of selected literature on supportive housing from the last 20 years as a resource. Please review each source carefully to understand how to apply it to your work. Download a summary of outcomes in supportive housing including many of these listed sources by [clicking here](#).
